

Even when you have a stellar resume and tons of experience, that may not have enabled you to learn the skills needed to lead passionately from the heart. Participants will learn a 10-step process through which they will:

- *Improve their ability to connect to Source, self and others*
- *Identify circumstances, dynamics, relationships and beliefs that keep them in the box and functioning below their potential*
- *Decipher the reasons for maintaining unhealthy or ineffective strategies, thoughts, paradigms and partnerships*
- *Honor their best efforts, even when those have been perceived as insufficient*
- *Release the elements that no longer promote achievement of goals or the development of healthy teams*
- *Redesign and course correct for healthier and more effective leadership*
- *Infuse passion into their missions!*
